

## Control parallelepiped

They are made of granite and are measuring instruments

Appropriate for control of squaring of measuring machines, machine tools.

The sidewalls are machined faces, perpendicular to each other.

Starting with the dimensions of 500 x 500, holes are provided for lightening purposes, threaded inserts for lifting and three inserts for adjustable feet.

On request: various dimensions and tolerances, wooden container.

Engraved serial number.

Test report included on linearity and parallelism.

### Specifications

Dimensions mm	Weight Kg	GR.00 $\mu$ m // $\perp$		Code	GR.0 $\mu$ m // $\perp$		Code	Code container
300x200x50	7	2,5	2,5	1050.01	5	5	1051.01	1052.01
